

## [Ultrasonic Cavitation, RF Cellulite Reduction Machine \(Body Slimming Machine\)](#)

### **Ultrasonic Cavitation, RF Cellulite Reduction Machine (Body Slimming Machine)**

If you are searching for quality and affordable cellulite reduction equipment, you have come into the right place. Noble is an experienced body slimming machine and cellulite reduction machine manufacturer and supplier in China. This page shows you 7 models of Noble body slimming equipment. Designed based on both ultrasonic cavitation and RF technologies, this beauty equipment have both body shaping function and wrinkle removal function.

The following will give some detailed information on our Titan series, I slim series and Crystal series machines. Titan series vertical cellulite reduction machine is designed with 8.4 inch LCD and water cooling system, and it comes with RF output modes, namely monopolar, bipolar and Tripolar RF output. Crystal series and I-slim series are portable body slimming equipment with 5.7 inch display screen, and I-slim series cellulite reduction equipment adopts a new type plug.

#### **Applications**

With reliable performance, our body slimming machines are now widely used in beauty salons, spas, clinics and laser beauty institutions, etc.

To be specific, our ultrasonic cavitation, RF cellulite reduction machine is often used for skin rejuvenation, body shaping and skin tightening. It can also be used to soften hard fat tissue, break up lipocyte or strengthen skin.

#### **Advantages**

1. This body slimming machine gives non-intrusive treatment without anesthesia, wounds, pain, and side effects, thus having no impact on your job or study. In addition, it only takes 20 minutes for one treatment, but leaves an apparent long lasting result.
2. Our ultrasonic cavitation, RF cellulite reduction machine comes with a touch screen and a human machine interface which makes equipment operation more convenient.
3. Equipped with digital frequency control system, the energy output is even and precise.

#### **Technical parameters of ultrasonic cavitation, RF cellulite reduction machine Titan-A**

Display	8.4 inch color touch screen
Cavitation Max Output	100W
Cavitation Frequency	40KHz/28KHz
RF Frequency	10MHz
RF Energy	2-300J, adjustable
Power Supply	110/220V 10 60HZ 6A
RF Output Mode	Monopolar, Bipolar, Tripolar
Cooling System	Water cooling

#### **Crystal-D, Crystal-E, Crystal-E, I slim-A , I slim-B, I slim-C, I slim-D**

Display	5.7 inch color touch screen
Cavitation Max Output	100W
Cavitation Frequency	40KHz/28KHz
RF Frequency	10MHz
RF Energy	2-300J, adjustable
Power Supply	110/220V 10 60HZ 6A
RF Output Mode	Tripolar

As a China body slimming machine manufacturer, Noble Laser Technology Co., Ltd. can also provide RF skin lifting equipment, E light beauty equipment and oxygen jet skin care equipment, etc. Our company is already ISO13485:2003 certified. In addition, in order to ensure reliable quality, all the raw materials are strictly inspected before they are put into use. So you can trust us on the quality.

If you are interested in our ultrasonic cavitation, RF cellulite reduction machine, please contact us! Noble Laser Company looks forward to be your business partner.
